

A Hardwood Floor of any Color You may Choose for \$2.50

Floors which are in too poor condition to be improved with varnish alone can be made to imitate a genuine hardwood floor with this new patented Graining System. This process does not require the services of a professional wood finisher.

The Graining Tool takes the place of skill and can be successfully used by the inexperienced man or woman, thus making it possible for any one at a very slight expense to enjoy the luxury of a new hardwood floor.

This Graining Compound when protected by one of two coats of Chi-Namel produces a surface that will outwear any ordinary varnished floor, many times over.

ACCIDENT RESULTS FATALLY.

Frank Wabler Dies as Result of Injuries Received in C. & H.

As the result of injuries received April 15, while at work underground in the Hilda branch of the C. & H. mine, Frank Wabler, a young miner, aged 18, died this morning at the C. & H. hospital.

Cosmo Fisher was notified of the death of the young man and conducted an inquest at the hospital, the jury composed of W. A. Matthews, William Berryman, William Miller, George McLean, George Wright and Fred G. Danielson, returned a verdict to the effect that death was the result of an accident.

Young Wabler was engaged in pushing an empty tram car at the time of the accident when he was struck over the head by a piece of falling rock, which presumably came from the overhanging. The accident occurred in No. 4 level, south of No. 15 shaft.

The deceased is survived by his parents, Mr. and Mrs. Henry Wabler, of Lake Royale street, Laurium, and eight brothers and sisters. Arrangements for the funeral are being made today. The deceased was born and raised in Calumet and was well known.

MANY SALOONS SUSPEND IN U. P.

MORE THAN TWO HUNDRED TO
QUIT BUSINESS AT MID-
NIGHT OWING TO
NEW LAW.

At midnight tonight some 200 saloons in the upper peninsula will be forced out of business, fully that number having been refused licenses by the various city, village and township boards throughout the peninsula, in conformity with the provisions of the Warner-Crampton liquor law and the decisions of the state supreme court, limiting the number of saloons in the state to one for every 500 population.

For years this ratio has been doubled and tripled in many of the upper peninsula cities and it was only after the hardest work on the part of licensing boards that the reduction was brought about. Not until this spring was any determined effort made by any of the municipal bodies to reduce the number of saloons, although the new law was passed in 1909.

Law Misinterpreted.
This was due chiefly to a misunderstanding of the act as variously interpreted. This confusion was cleared away by a decision of the State Supreme Court rendered last month, and at the statutory meeting of the city and village councils throughout the upper peninsula during the past two weeks the act fell reluctantly upon the third emperors.

In Marquette the number of saloons was reduced from 46 to 20, a reduction of 16. Red Jacket looped off 72; Hancock cut out 16; Menominee removed a score of the liquor refreshment parlors; Ishpeming, Negaunee, Escanaba, Sault Ste. Marie, Crystal Falls, L'Anse au Loup, Houghton, Ontonagon, Laurium—practically every town and hamlet north of the straits, found a way to bring the reduction of its saloons to the allotted number.

More Must Close.
The supply of saloons is still too large and at least 100 more must be closed before the upper peninsula is strictly within the limits of the Warner-Crampton law, but the municipalities feel that they have made a very good beginning.

The loss of revenue was brought forth as the principal objection to the elimination of "superfluous" saloons. The 800, which adjusted its saloon situation immediately after the passage of the Warner-Crampton act, solved this problem by dividing the establishments by two and multiplying the license fee by the same number, which, it found, gave the same result financially. Thus 800 saloons for the last two years have paid a license fee of \$1,999 per annum in place of the former commission of \$300 and both the municipality and the saloonists find themselves well pleased with the state of affairs.

HOWARD W. BLUE PASSES.

Well Known Calumet Young Man Succumbs to Long Illness.

After an illness of long duration, Howard W. Blue passed away last evening at the home of his parents, Mr. and Mrs. James Blue of Cemetery street, Hecla.

The decedent was 24 years of age and was a native of Calumet. He was educated in the Calumet public schools and later was employed by the Western Express company, leaving that company to enter the employ of the Michigan Central at Detroit. He was one of the enumerators who assisted in the taking of the last national census. Although he had been in poor health for several years, Mr. Blue was of a studious nature and was one of the best amateur electricians in the copper country. He was also an expert photographer.

Mr. Blue was confined to his home most of the winter through illness and his condition was such that death was not unexpected. The announcement of his demise, however, occasioned much regret among his many friends. Besides his parents, the following brothers and sisters survive: John of New York, James of Detroit, Robert and Mrs. Victor Sundberg of Calumet. The funeral services will be held Thursday afternoon at 2 o'clock from the residence, Rev. D. D. Stalker of the First Presbyterian church in charge, with interment in the Lake View cemetery.

KEARSARGE CRICKETERS.

Prospects for This Year's Team Reported to Be Bright.

At a meeting of the Kearsarge cricket team held Saturday afternoon at the Kearsarge captain's office, E. Gould was selected as secretary of the club to succeed Will Moyle, resigned. The latter will act as umpire for the coming season and Joshua White will be the scorer of the club.

Treasurer Richard Cornish reported a comfortable balance left over from last season and no special effort will be made to raise funds at this time. Several new players are expected in the near future and indications point to the fact that Kearsarge will have one of the strongest teams in the league.

LOCAL BOWLING RECORDS BROKEN

SINCOCK OF INDEPENDENTS
MAKES HIGHEST INDIVIDUAL
SCORE—TOURNEY WILL
END TODAY.

Local bowling records were broken last evening in the Y. M. C. A. tournament, when Sincock of the Independent team, bowling in the doubles, ran up a total of 640 pins, the highest individual bowling score for the series. Sincock also made remarkable scores in the triples and five-men events, having a grand total of 1,757, being just 100 pins higher than his next nearest rival, Barbeau of Lake Linden.

In the doubles Sincock and Mahan, rolled 1,170, beating Barbeau and Buschell of Lake Linden, top score up to last night, by 51 pins, and topping the Lake Linden duo's scores made in Duluth recently by about 40 pins, when the Lake Linden bowlers won the head of the lakes doubles' tournament.

In the triples, too, the Commercial team bowled a total of 1,654 which tops the list, defeating the next highest, bowled by Buschell, Brockway and Barbeau by 34 pins. The tournament ends today, when Mohawk will bowl afternoon and evening.

The following are last night's remarkable scores:

Commercial, Triples—	Total.
Borchgrevink	185 154 171 510
Brock	213 201 192 606
Cardis	178 177 183 538

NO CAUSE FOR COMPLAINT.

Deputy Food Inspector Rowe Talks of The Old Lieblein Stock.

John T. Rowe, deputy state dairy and food inspector, has received an anonymous letter, suggesting the possibility of peddlers and small dealers purchasing the water logged and fire damaged stock from the Lieblein company and disposing of it to the unsuspecting public. The letter calls upon Mr. Rowe to take action in this matter and to make answer through the columns of the local papers.

Mr. Rowe is disinclined to answer the communication officially because of the fact that it is anonymous. His department is a state department engaged in the service of the people and he states that before official recognition can be given to a communication of this kind it must bear the signature of the writer. Otherwise an unwelcome precedent would be established and one without the sanction of the department, as matters of this kind must be taken up with the department chiefs.

In discussing the situation arising out of the Bollman block fire, however, Mr. Rowe stated that the public has no reason to fear that unsanitary stock will be sold. The inspector has already given his personal attention to the matter and has received the assurance of Messrs. Lieblein, in whose integrity he has the utmost confidence, that nothing unfit for public consumption will be offered for sale. Mr. Rowe states that only last week perishable stock valued at \$5,000 was destroyed by the fire and that the only things offered for sale are canned goods, which could not be damaged by water. All corn meal, cereals, rice, and other goods which were only slightly damaged have been and are being sold for bargain prices, as feed for stock. Mr. Rowe says there should be no possible objection to this action, and he feels certain there is no cause for complaint.

TWO MORE BONDS APPROVED.

At a special adjourned meeting of the Calumet township board held this morning, the liquor bonds of Charles Petersen and Steve Yoo, both saloonkeepers at Renova, were approved. This makes seven saloons that will do business in Calumet township this year. One other application is pending that of Joe Furno, who wishes to open a saloon in the Lake View district. This will be acted on at the next regular meeting of the board, Tuesday morning of next week.

SOBRIETY AND BASEBALL.

Norman Hagwood says he has "an idea that the greater sobriety of the baseball players today has been made possible not only by the increasing realization everywhere that drink interferes with efficiency, but by the special fact that the modern railroad train service enables them to get decent meals. When the best you can do is to jump off the train once in a while for five minutes to grab something uneatable, it is nearly an irresistible temptation to take refuge in liquid stimulation.

Another cause of the increased skill at the top is that the game is played by a larger portion of the population. Few but the Irish and regular Americans used to play. Today a German, a Frenchman and a Georgia American have the best reputations as batters; the crack catcher of two or three years ago was a Jew; a pitcher and a catcher in the last word's series were Indians; Swedes and Italians and almost every other species of Americans amount.

The relations between the big leagues and minors are also closer, and the machinery for bringing the best talent in the nation to the two major leagues is almost perfect. Two who are sufficiently skillful to get to the top refrain. So great are the interest and the glory that if a son of Roosevelt, Edison, Eliot, Saint-Gaudens, or Morgan developed in college the baseball talent of Eddie Collins, it would be hard to tempt him into any other walk of life."

Why Salves Can't Cure Eczema

Since the old-fashioned theory of curing eczema through the blood has been given up by scientists, many different salves have been tried for skin diseases. But it has been found that these salves only clog the pores and cannot penetrate to the inner skin below the epidermis where the eczema germs are located.

This—the quality of penetrating—probably explains the tremendous success of the well known liquid eczema remedy, oil of wintergreen, thymol, glycerine, etc., as compounded in D.D.D. Prescription. If you come to our store, we are so certain of what D.D.D. will do for you that we offer you a full size bottle on this guarantee—If you do not find that it takes away the itch AT ONCE, it costs you not a cent.

We have sold other remedies for skin troubles but none that we can recommend as highly as this for we know that D.D.D. stops the itch at once. We can give you a trial size bottle for 25 cents that will be enough to prove it.

Of course all other druggists have D.D.D. Prescription—go to them if you can't come to us—but don't accept some big brand substitute.
